DETAILED ACTION

The amendment filed on 11 May 2004 has been entered and overcomes the rejections of claims 1-12, 17-26, and 30-32.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1, 2, 3, 7, 9 -11, 17, and 30-32 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record neither shows nor suggest a full color organic EL display panel comprised of, in part, a plurality of transparent anode electrodes arranged on a first site of the plurality of light emitting pixels and at least one auxiliary electrode formed on at least one anode electrode thereby forming at least one anode/auxiliary electrode combination with a lower resistivity than the anode electrode alone, along with the other limitations of the claim.

Regarding independent claim 30, the prior art of record neither shows nor suggest a full color organic EL display panel comprised of, in part, an anode circuit for outputting a different drive voltage for RGB light emitting pixels, a cathode circuit connected to both ends of the cathode lines, for outputting the same signals, and a display unit where the area ratio of the RGB light emitting pixels and the width of the

anode lines are adjusted according to characteristics of the applied drive voltage, along with the other limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
